

Hello all of you incredible 4th graders! Below are some enrichment activities that you can engage in by yourself or with your family. Your Overton family misses you and we cannot wait to hear about all the things you've learned while you were at home! Most importantly, don't forget to **read books** whenever you can!

¡Hola chicos de cuarto grado! En seguida encontrarán actividades de enriquecimiento que pueden cumplir solos o con su familia. Tu familia escolar te extraña mucho y no aguantamos el momento en que nos encontraremos nuevamente. Favor de leer frecuentemente.

Everyone waits for this moment. The week before spring break. We are all so excited, the students can hardly concentrate when their teachers are talking. “Who cares about action verbs? What are your plans next week? Do you want to hang out at my house?” These are some things teachers heard buzzing around the classroom. When the end of Thursday came, I was so relieved. “Just one more day,” I tell myself. As I’m enjoying my evening, I get a phone call from a (512) area code that I recognize. I answer the phone and say, “hello?” On the other end of the line, there’s a recorded message from Superintendent Paul Cruz, saying school has been cancelled the next day! Surely the children were excited, but this was the day the teachers began to worry. I knew something wasn’t right. As the week continued, I did my part to stay home, clean and sanitize my entire house, and indulge in some at-home leisure activities that I don’t usually get to spend much time on. I’ve read a book for fun, painted my nails probably 10 times, and played with my dogs every day. I’ve been learning online about how to possibly do more school-work on the computer, and I’ve gotten really good at playing dominos. Last, I’ve thought about ALL of you so much. Much more than you probably could imagine. I hope you’re happy, healthy, safe, and enjoying this unexpected break...we all do! Please enjoy the enrichment activities all your teachers have worked so hard to put together! Don’t forget how much we are thinking of you, how special you are, and how much we look forward to all being back together again!

A pesar de que todos estábamos emocionados por la llegada de las vacaciones de primavera, hubiera podido predecir la llamada de nuestro superintendente, Paul Cruz, diciendo que se habían cancelado clases. Supongo que los niños hayan celebrado la llegada prematura de las vacaciones, pero sus maestros se sentían preocupados así que sospechábamos que algo no está bien.

Mientras los días han pasado, he cumplido con mi parte de quedarme en casa, limpiar y desinfectar mi hogar y dedicar más tiempos a mis ocios. He visto muchas películas, leído, perseguido mis gatas tratando de acariciarlas y he tratado de buscar ideas para presentarles deberes de enriquecimiento. Los echo mucho de menos y espero que estén sanos y a salvo. Espero que estén gozando de este tiempo libre inesperado pero que también lo usen para aprender cosas nuevas.
